The wage rates under the column "Total Hourly Wages Rate" as set forth by the committee are the minimum wage rates to be paid and shall not prevent a contractor from paying a higher wage rate.

C. CLASSES OF OCCUPATIONS/TRADES

It is the committee's determination that semi-skilled and unskilled workers within the county are apprentices who are individually registered in a bona fide apprenticeship program as certified by the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training.

With the exception of laborers, the wage determinations for the classes of semiskilled and unskilled workers within the skilled trades represent the apprentice's progress in the apprentice program for that skilled classification in this wage scale as provided in the relevant apprentice program standards.

Where the committee has marked "N/A" under the classes of semiskilled and unskilled, it is the committee's determination that the common practice in the county is not to use a semiskilled or unskilled designation with regard to that classification.

D. APPRENTICES

Apprentices are individuals employed and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training.

With the exception of laborers, the utilization of workers in the classes of semiskilled and unskilled, who have not been properly registered as apprentices within the meaning of the Bureau of Apprenticeship and Training regulations and the contract stipulations, is contrary to this wage scale. Such unindentured workers shall be entitled to receive compensation at the skilled rate for that classification.

E. COMMON CONSTRUCTION WAGE AS A CONDITION OF THE CONTRACT

As required by Indiana Code 5-16-7-1(h), it shall be a condition of a contract awarded for the above cited project that the successful bidder and all subcontractors shall comply strictly with the determination made by this common construction wage committee.

F. VERIFICATION OF THE CONTRACTOR'S SCHEDULE OF WAGES

As required by Indiana Code 5-16-7-2, before any contractor or subcontractor performs any work on the above cited project, each contractor and/or subcontractor must file (with the above cited awarding agency) a schedule of the wages showing the wages that it intends to pay to workers on the project.

EXHIBIT A CITY OF CARMEL COMMON CONSTRUCTION WAGE HEARING Heavy Highway February 2006

Engineering Department Projects

Guilford Road & Carmel Drive Signal and Intersection improvements \$225,000

 This project involves traffic signal replacement, adjustments to intersection alignment, and the addition of pedestrian crossings. Includes design, construction and inspection of this intersection improvement.

AAA Way & Merchants Square West Drive Intersection Improvements \$250,000

• This project involves adjustments to intersection alignment, and the addition of pedestrian crossings. Includes design, construction and inspection of this intersection improvement.

136th Street & Oak Ridge Rd. Intersection Improvements \$750,000

• This project is 0.2 mile long. This project will include the construction of a roundabout at the intersection of 136th Street and Oak Ridge Rd. and will tie into the north end of the proposed Illinois St. corridor. The project will also reconstruct the culver carrying 136th St. over Little Cool Creek and will include bituminous recreational paths, curb & gutter, and storm sewer.

96th St. from Meridian to Springmill Road \$2,250,000

This project is approximately 0.5 miles in length from Meridian Street to Springmill Road. There will be a roundabout at 96th Street and Springmill Road. It will be a 4-lane boulevard style roadway with concrete curb & gutter, asphalt pavement, grass medians, storm sewers and recreational paths.

Illinois St. from Clarian to 131st Street (W. Carmel Drive) \$3,500,000

• This project is approximately 0.8 miles in length from the north property line of Clarian Hospital to 131st Street. There will be a roundabout at 126th Street and Illinois. The project will construct a 4-lane boulevard style roadway with concrete curb & gutter, asphalt pavement, grass medians, storm sewers and recreational paths.

Illinois St. from 131st Street to 136th Street \$4,500,000

• This project is approximately 1.1 miles in length from the current intersection of 131st Street and Meridian Corners Blvd. to the current intersection of 136st Street and Oak Ridge Rd. It will be a 2-lane boulevard style roadway with concrete curb & gutter, asphalt pavement, grass medians, storm sewers and recreational paths.

3rd Ave. SW from Industrial Drive to Main Street \$1,250,000

This 0.5 miles project from Industrial Drive to Main Street will include boulevard style
roadway improvements consisting of a curbed asphalt roadway, storm sewers and bituminous
recreational paths or sidewalks. Improvements will also include the construction of a
roundabout at Main Street.

4th and Main Street Project \$800,000

• This 750-foot project from the Monon Trail west to approximately Knoll Court will include streetscape and roadway improvements consisting of a curbed asphalt roadway, on-street parking, storm sewers, sidewalks and various decorative paving, planters, light fixtures, etc. Improvements will also include the construction of the entrance archway for the Old Town District. This project will extend east and west of the planned roundabout at 4th Avenue SW and Main Street.

Shelborne Realignment at 116th Street \$1,000,000

• This project involves realigning Shelborne Road north of 116th Street such that it aligns with Shelborne Road south of 116th Street. The segment of roadway will be a 2-lane boulevard style roadway with concrete curb & gutter, asphalt pavement, grass medians, storm sewers and recreational paths and will include a roundabout at the intersection of 116th Street and the existing Shelborne Road alignment south of 116th Street. Includes design, right-of-way acquisition, construction and inspection of this intersection improvement.

2006 Sidewalk Improvements \$300,000

- The project will involve the construction of sidewalk at the following locations:
 - 136th Street from Carey Road to Tulip Poplar Crest
 - Pedestrian Bridge across U.G. Mitchner Drain
 - Pedestrian Bridge across Emily Vestal Ditch, 131st Street

Guilford Road 116th to Carmel Drive \$750,000

This 0.6 miles project from 116th Street to Carmel Drive will include boulevard style roadway improvements consisting of a curbed asphalt roadway, curbed center median island, storm sewers and bituminous recreational paths.

106th Street Culvert Replacement \$150,000

• This projects involves the replacement of the existing culverts under 106th Street, just east of White Oak Drive. The culverts are in a state of disrepair and are acting to undermine to roadbed material, causing the roadway to sink.

Towne Rd. from 126th Street to 131x Street \$1,150,000

• This project is approximately 0.7 miles in length from just south of 126th Street to just north of 131st Street. There will be roundabouts at 126th Street, Glebe St., and 131st Street. It will be a 4-lane boulevard style roadway with concrete curb & gutter, asphalt pavement, grass medians, storm sewers and recreational paths.

131st Street from Ditch Rd. to Spring Mill Rd. \$2,250,000

• This project is approximately 1.1 miles in length from Ditch Rd. to Spring Mill Rd. There will be intersection improvements at Ditch Rd. and Clay Center Rd. 131st Street will be a reconstructed as a 2-lane boulevard style roadway with concrete curb & gutter, asphalt pavement, grass medians, storm sewers and recreational paths.

136th Street from Dithch Rd. to Oak Ridge Rd. \$4,800,000

This project is 2.0 miles long. It will consist of boulevard style roadway improvements that include curbed asphalt roadway and storm sewers. It will require improvements to two creek crossings. This project will include the construction of a roundabout at the intersection of 136th Street and Oak Ridge Rd. and will the into a roundabout constructed as part of another project at Springmill Rd. There will also be bituminous recreational paths constructed on both sides of the road.

Street Department

1) 2006 Paving Program

This will consist of mainly maintenance of existing streets throughout the City of Carmel. Some we will just be adding an overlay of existing asphalt. Others we will be milling out the top layer of asphalt and adding back new asphalt. The cost of these projects will be approximately \$1,600,000.

2) 2006 Concrete Replacement Program

This will consist of taking out bad concrete in concrete streets, curbs, and some sidewalk and re-basing and pouring new concrete. Again, this is maintenance on existing streets within the City limits. The work is done throughout the City at an approximate cost of \$400,000.
